

Moments worth screenshotting

We have all kinds of interactions on social platforms throughout our days. Screenshots are a way to capture what happens and to save these moments or share them with others. This probe asks you to screenshot notable moments in your use of social platforms and describe them. You may choose whether to complete a card in the moment or revisit your screenshots later.

Instructions

1. When you have an experience on a social platform that is notable or produces a strong reaction (either positive or negative) take a screenshot.
2. When you get a chance, revisit each screenshot and complete one of the cards for it. You can draw out the screenshot in the wireframe provided, print it out or upload it to the dropbox linked via the QR code. If uploading a screenshot, remember to edit the photo to redact anything you don't want to share with the researcher.
3. Answer the questions about the moment.
4. Check off the moment below.
