

Social platform characters

Online we present different versions of ourselves in different places. This probe asks you to imagine each of your accounts as it's own character.

Accounts to make cards for

Check off the accounts as you make character cards for them. Multiple checkboxes are provided in case you have more than one account on a platform. Feel free to create characters for platforms not listed and write them on the right.

Instructions

For each social platform account:

1. Write the platform and identify the account at the top. You don't have to provide usernames and can write a description e.g. main/alt/personal
2. Use the space on the front of the card to draw a character/comic/caricature/meme of the account. Alternatively upload an image using the QR code included in the pack.
3. Get your character to say something about you or how you use the account.
4. Turn over the card and answer the questions on the back. Give your character special powers and curses. If you get stuck, think of what you like and don't like about the account/platform. Then mark the scales and write a bit about how you use the account.
5. Check off the account on the front side of the box.
